Promotion of Creativity in High School Students

This project will be using quantitative surveys of students in three highschool classes. The data will be anonymized and stored on a local machine.

This data will be kept for a period of no longer than 10 years. The investigators will have sole access to the data for a period of one year.

The data will be stored in CSV format and analyzed using SPSS. The Metadata will be in XML format and will be created expressly for this project. The metadata codebook will be necessary to make sense of the dataset.

The data will be stored in CSV format on the local machines of the investigators.

Question not answered.
