The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customize it as necessary. You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

DMP for the Index of Economic Freedom

All data collected are under Public Domain authorization.

The data are going to be collected to be analysed by anyone interested on the subject. Thus, there will be no restrictions.

The data collected are not sensitive at all, and they are a compilation of already public information, interpreted and compared.

The files are mostly numeric, organized in Excel. There will be also some news about particular events that explain the data obtained.

Personal Computers, telephones.

XML and TXT.

Only official organizations' data are going to be considered and stored. The data are going to be checked monthly.

All data are going to be stored on the online cloud for documents from Google Drive.

All data will contain notes referring to their author, geographical and temporal origin.

The tool used to manage the metadata will be the Encoded Archival Description.

All data will be available for analysis.

The data will be available on the website.

Question not answered.
